

Continuously Accurate Provider Data. Real-Time Provider Integrity Alerts. Automated Always-On Solution.

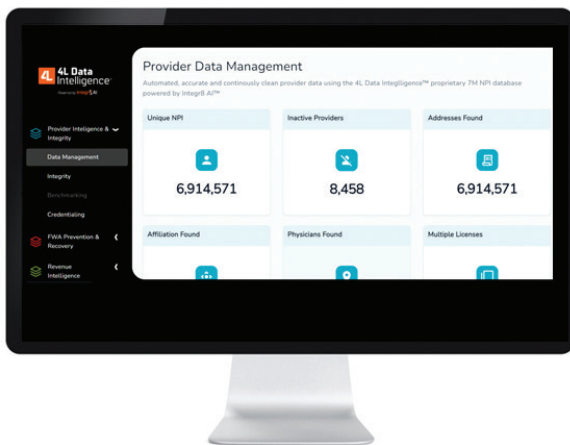

Problem: Provider Data Is Chronically Inaccurate & Costly To Maintain*

- 2/3 of providers have at least one data accuracy issue
- 1.2 to 3% of provider integrity issues require action
- >25% of provider files are duplicates
- *No Surprises Act* imposes fines for inaccurate provider data
- PDM is high-cost, slow and labor-intensive

Solution: Automated, Continuously Accurate Provider Data Powered By Integr8 AI™

Provider Intelligence & Integrity Solution Delivers

- 1-week to continuously accurate provider data
- Rapid access to a single-source of provider data truth
- Real-time provider integrity sanction and major event alerts
- Permission-based provider data dashboard and staff lookups
- Weekly or monthly automated provider data updates
- Automated provider data file updates delivered to Snowflake® data cloud or your data warehouse

Continuously accurate provider data management and provider integrity are powered by patented Integr8 AI™ and the 4L Data Intelligence™ database of approximately 7M providers.
